

Project Design Phase-II

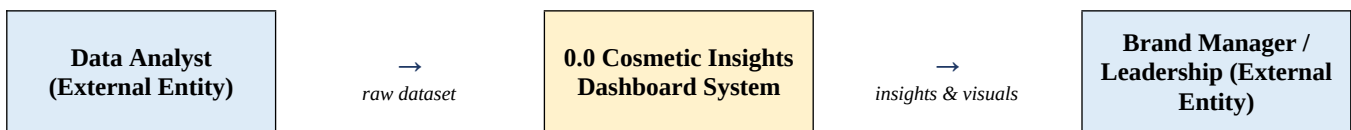

Data Flow Diagram & User Stories

Date	22 July 2026
Team ID	
Project Name	Cosmetic Insights: Navigating Cosmetics Trends and Consumer Insights with Tableau
Maximum Marks	4 Marks

Data Flow Diagrams

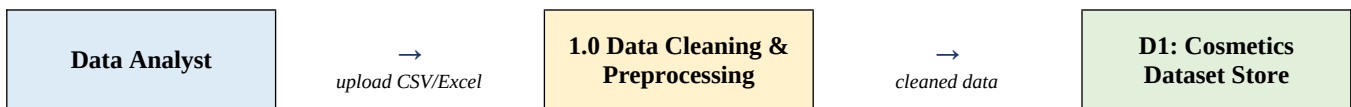

A Data Flow Diagram (DFD) is a visual representation of the information flows within a system. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Level 0 — Context Diagram

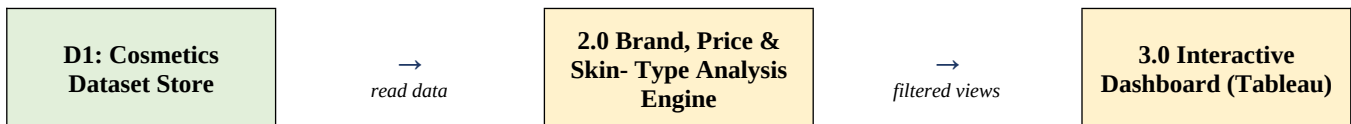

Level 1 — Detailed Data Flow

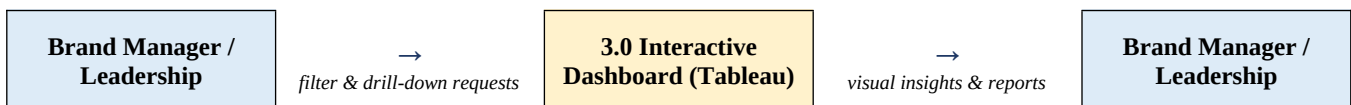

Step 1: Ingest and clean the raw dataset.

Step 2: Analyze cleaned data and feed the dashboard.

Step 3: Deliver interactive insights back to the user.

User Stories

The following table lists the user stories for the Cosmetic Insights dashboard.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Data Analyst	Data Upload & Preprocessing	USN-1	As a data analyst, I can upload the cosmetics dataset (CSV/Excel) into the system.	I can see the dataset loaded and previewed without errors	High	Sprint-1
Data Analyst	Data Upload & Preprocessing	USN-2	As a data analyst, I can clean and standardize brand, price, rank, and skin-type fields.	I can see missing/inconsistent values flagged or	High	Sprint-1

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
				resolved		
Data Analyst	Brand & Pricing Analysis	USN-3	As a data analyst, I can build visuals comparing brand performance by price and rank.	I can view a chart ranking brands by price and rank	High	Sprint-1
Brand Manager	Brand & Pricing Analysis	USN-4	As a brand manager, I can view top and bottom performing brands by category.	I can filter and see ranked brand lists by category	High	Sprint-2
Brand Manager	Skin-Type Segmentation	USN-5	As a brand manager, I can filter products by skin type (Dry, Oily, Combination, Normal, Sensitive).	I can select a skin type and see only matching products	High	Sprint-2
Brand Manager	Skin-Type Segmentation	USN-6	As a brand manager, I can view skin-type coverage across brands and categories.	I can see a coverage heatmap by skin type and brand	Medium	Sprint-2
Brand Manager	Interactive Dashboard & Filters	USN-7	As a brand manager, I can drill down from a category summary to individual products.	I can click a category and view underlying products	High	Sprint-2
Leadership	Interactive Dashboard & Filters	USN-8	As a leadership user, I can export a dashboard view as a PDF or image for reporting.	I can download a shareable summary report	Medium	Sprint-3
Leadership	Trend & Insight Reporting	USN-9	As a leadership user, I can view trend charts across categories and price bands over time.	I can see a trend line highlighting shifts in demand	Medium	Sprint-3
Administrator	User Access	USN-10	As an administrator, I can manage role-based access to the dashboard on Tableau Server/Cloud.	I can assign analyst vs. leadership view permissions	High	Sprint-1
